Q.1.) Prepare a result Sheet.

Q.2.) Apply appropriate conditional formatting to the cell of result column

a.) Set Red color if failed division.

b.) Set Blue color if passed division.

c.) Set Yellow color if first division.

d.) Set Green color if distinction division.

Solution to Prepare result Sheet

1.) Total = SUM(first Subject : Last Subject)
2.) Result = If the marks is greater than 32 in all subjects then pass else fail.
3.) Division : If Result = failed then failed.

    Else,

    Percentage >=80,”Distinction “

    Percentage>=60,”First”

    Else PASS

4.) Calculate Rank using Rank Function.
5.) Count number of Students with Distinction division , First division , passed Division ,Failed students.
